# Therapeutic antibodies

## Selection, engineering and bioproduction of antibodies for human therapeutics

The CNRS research group ACCITH "Antibodies and therapeutic targeting" organizes its annual scientific meeting in Strasbourg-Illkirch. The theme of Forum 2011 will focus on selection, engineering and bioproduction of antibodies for use in human therapy. The international conferences of the meeting will be open to the scientific community.

**Monday September 19, 1:30 pm - 7:00 pm**

**GDR private meeting**, restricted to GDR members (*in French*)
